

MODERN DRUMMER'S 2006 INDEX UPDATE

INTRODUCTION

In our continuing effort to maximize the value of *Modern Drummer*—and MD Online—as reference tools, we're pleased to offer this *2006 Index Update*. The listings presented here are a guide to virtually all of the biographical, educational, and special-interest information presented in *Modern Drummer* in the past year.

The names on the *Artist Reference List* are presented alphabetically, followed by coded information showing where any information pertaining to each person named might be found. This allows you to look up your favorite drummer and immediately see where anything MD published about that drummer in 2006 may be located. You'll also see whether that drummer has written any columns for MD, and if so, in which departments you should look them up.

Unless otherwise noted in their headings, column departments are indexed alphabetically by the author's last name. Notable exceptions are *Drum Soloist* and *Rock Charts*, which are indexed by the artists' names. Product reviews are listed alphabetically by manufacturer or product name in the *Product Review/Information Columns* section. In this way, you can quickly find out what our reviewers thought of any particular piece of equipment simply by looking up the item by name. Information contained in press releases that appeared in the *New And Notable* department is also presented in this section.

It is our hope that the manner in which we have organized our *Index Update* will make it easy to use, so that you can have quick and easy access to the wealth of information presented in MD's pages over the past year.

KEY TO SYMBOLS USED THROUGHOUT THE INDEX

The parenthetical abbreviations indicate where information on (or authored by) a given artist may be found. (In the case of the *Product Review Columns*, the abbreviations indicate where information on a given product may be found.) With the exception of (F), all abbreviations refer to column or department titles.
